"What a box of tricks! This full-throttle thriller, dark and driving, rivals Agatha Christie for sheer ingenuity and James Patterson for flat-out speed. Swift, sharp, and relentless."

— A. J. Finn, #1 *New York Times* bestselling author of *The Woman in the Window*

"NO EXIT by Taylor Adams is an intense, brutal, no-holds-barred thriller dripping with adrenalin; a heart-pounding story of courage and sacrifice featuring a heroine unlike any you've ever seen. Don't start unless you're prepared to read straight through, because I guarantee you will not be able to stop turning the pages." —

Karen Dionne, author of the international bestseller *The Marsh King's Daughter*

"*No Exit* is everything I want in a thriller: ingeniously crafted, unapologetically relentless, and shamelessly suspenseful. The twists go off like a series of expertly planted detonations and the tension never lets up. I was blown away. *No Exit* is a damn good time." - Joe Hill, #1 *New York Times* bestselling author

ACROSS THE WATER

Psychological thriller

Everyone has secrets. But what happens when yours pull you under...

In a remote, boat-access only house, Liz Dawson's lifeline to the real world is her window, where she watches the people who live in the three identical houses that sit side by side across the creek. But it's the middle house Liz finds herself drawn to most: the beautiful young mother, Delilah Waters, and her baby.

When Dee and her baby go missing, last seen by the murky waters of Oyster Creek, it is a suspected murder-suicide. After all, it's no secret that Dee Waters never wanted children. She wasn't coping with the baby. Everyone in the town believes she leapt to her death, taking her child with her. Everyone except Liz.

Wrestling with her own demons, Liz risks everything to uncover a truth that becomes more complex with every twist. Of all people, Liz knows that just because someone is a reluctant mother, it doesn't mean they don't love their child. And it doesn't mean they're capable of murder... does it?

THE WOMAN IN THE WINDOW meets THE HAND THAT ROCKED THE CRADLE, ACROSS THE WATER explores the darker side of motherhood, the pressure to conform, and how women's choices shape their fate.

1910, India. Young and curious Alice, with her spun-gold hair, grows up in her family's sprawling compound with parents as remote as England, the cold country she has never seen. It is Raju, son of a servant, with whom she shares her secrets. Together, their love grows like roses – but leaves deep thorns. Because when they get too close, Alice's father drags them apart, sending Raju far away and banishing Alice to England...

1944. Intelligent and kind Janaki is raised in an orphanage in India. The nuns love to tell the story: Janaki's arrival stopped the independence riots outside the gates, as the men on both sides gazed at the starry-eyed little girl left in a beautiful

hand-knitted cardigan. Janaki longs for her real mother, the woman who was forced to leave her on the steps in the middle of a war, wrapped in a precious gift...

Now old enough to be a grandmother and living alone in India, Alice watches children play under the tamarind trees, haunted by the terrible mistake she made fifty years ago. It's just an ordinary afternoon, until a young girl with familiar eyes appears with a photograph and Alice must make a choice. Will she spend the rest of her life consumed by dreams of the past, or can she admit her mistakes and choose love and light at last?

A stunning and heart-breaking novel about how a forbidden love can echo through the generations.

An old cottage hidden in some trees. A missing girl whose body was never found. Has her killer returned?

Detective Joseph Easter's daughter discovers a derelict cottage hidden in a copse of trees on a large farm. Someone's been living there. The farm-owner's wife has been receiving sinister pagan artefacts, including a witch's knife. Are they some sort of warning or message?

Joseph and his daughter search the cottage and find an old satchel. Inside are photos of a beautiful girl, Jennifer Cowley. She went missing fifteen years ago. She'd been stalked by a young man, who was convicted of her murder, even though her body was never found.

When DI NIKKI GALENA examines the cottage, she finds something far worse. And in the satchel is a more recent photo of a girl who looks just like Jennifer. The man who killed Jennifer is recently out of prison. Has she struck again?

At the same time, DC Cat Cullen and Dave Harris are trying to get evidence against a man who preys on widowed older women. Vernon Deacon is seemingly a pillar of society, with very influential friends. But his victims aren't believed, so their job is not easy.

THE DETECTIVE: DI Nikki Galena: A police detective with nothing left to lose, she's seen a girl die in her arms and her own family destroyed. She's tough on criminals but fiercely loyal to her team.

HER PARTNER: DS Joseph Easter is the squeaky-clean member of the team. But his nickname "Holy Joe" belies his former life as a soldier. He has a daughter and an ex-wife who wants his attention.

THE SETTING: England's rural fenland is a strange place, with its never-ending fields, winding tracks, and long straight droves (the old livestock routes) that lead to nowhere. When the mists come down, as they so often do, perspective is destroyed and all sense of direction lost, and then the fens become a rather frightening place of mystery and danger. Somewhere that you do not want to be at night.

4 a.m. on the outskirts of London. A police squad descend swiftly on a house, eager to exploit the rare opportunity of catching a burglar in the act. Nothing could have prepared them for what they find.

From inside a room on the ground floor, comes the eerie sound of a woman singing, 'the childmaker . . . the childmaker . . . beware the childmaker'.

Four officers break down the door to enter a darkened room. Their flashlights illuminate the body of a man with a knife in his chest and a bloody mess where his face should be.

Nearby, stands a small, thin woman. In her hand is a kitchen knife . . .

By the time, Detectives Ray Paterson and Johnny Clocks arrive at the scene, there is carnage.

But what is bricked up behind the wall is far, far worse.

Think GREY'S ANATOMY, THIS IS GOING TO HURT and LOVE, ACTUALLY, if written by Mhairi McFarlane!

ANYTHING BUT EASY

Romantic comedy

ANYTHING BUT EASY is what happens when an unconventional sexual health doctor bursts into the perfectly structured life of a Tory cabinet minister. Love and Politics are the main ingredients of this hugely entertaining, sometimes heart-breaking but ultimately feel-good contemporary romance. Seriously funny, actually.

Kira Murphy is a liability: always has been. She might be small but her personality and heart are not: a sexual health doctor with a foul mouth, pink streaks in her hair, a bizarre world view, a reputation for being 'pathologically social', and a huge crush on the current Minister of State for Business, Energy and Clean Growth . . . she's weird and lovable in equal measure. The last thing Barclay Lucas needs is a liability. He's made it into the cabinet with single-minded determination, sheer grit, and serious conservatism. But then a crazy, pink-haired, tiny dynamo turns his life upside-down and serious for Barclay is a thing of the past.

But he's never liked feeling out of control – something he experiences with Kira on a daily basis. So he pushes her away when she needs him the most, and unfortunately for him she retreats at head-spinning speed. It's only then he realizes that although being with Kira is anything but easy, the grey, boring alternative is far worse. He'll have to use all his hard-earned political negotiating and maneuvering skills to get her back. Because after being dragged from black and white into full Technicolor with Kira, Barclay knows that, however serious and worthy his life is, he can't live it without her.

Drawing on Susie's own experiences as a doctor, ANYTHING BUT EASY is a poignant romantic comedy that also gives a tantalising insight into what goes on in hospital medicine. **Susie Tate** is a general practitioner in Dorset. Before becoming a GP she worked her way through a range of hospital specialties, from A&E, to Psychiatry, and in doing so encountered extraordinary characters as well as bizarre and often hilarious situations that became material for her books.

THE WANDERER

Young Adult romance

They're just two lonely souls, destined to be apart.

For the last few months Ryder has been content just to follow and love the girl with the fiery red curls from afar, but one rainy night changes everything. When Maggie steps out in front of a van, Ryder doesn't hesitate in saving her life - the girl he loved wasn't going to die on his watch. One moment of action alters their destiny forever.

Now he knows how it feels to be close to her, Ryder is addicted and breaking the rules at every turn.

It's the first time they've talked, the first time she's smiled at him, the first time he's had the full force of her attention on him, and he delights in it. But as the pair grow closer, Ryder struggles to keep his dark secret hidden.

He was already in love with her before that night, and the more they get to know each other, she's quickly catching up.

The trouble is, there's something that Maggie doesn't know... Ryder died five years ago in a tragic accident, so the boy she's fallen for doesn't exist.

Teenage love is epic. But falling in love with a human girl when you're dead? Yeah, that blows.

THE SMART WOMEN'S GUIDE TO MURDER (Book 1)

A faded country house in the middle of nowhere. The guests are snowed in. The murders begin.

Withering and waspish, Ursula Smart (not her real name) gate-crashes her mother's book club at an isolated country house for a long weekend retreat. Much to Mother's chagrin. Joining them are Mother's best friend, Mirabelle, Aunts Charlotte and Less, and Bridget with her dog Mr Bojangles. It doesn't matter that they've read *Gone Girl* three times this year already, this retreat is their chance to escape bustling suburbia. But someone has other ideas.

A body is found in the grounds. Is a lone killer hunting them? Or has one of their own group embarked on a killing spree? What they need is to stop sniping at each other long enough to solve the mystery before the killer strikes again.

What they need is a guide to survive.

THE ELITE SEVEN SERIES:

Dark romance

LUST by Ker Dukey (Book 1)

I was born with wealth, athletic ability, and looks that could melt the panties off a nun. I had a clear path to success. Until fate dealt me a cruel blow, leaving me empty and in need of purpose. My only focus now is to become part of The Elite—a secret society in one of the most prestigious colleges in the world. But everything comes at a price, and with The Elite, you have to earn your place. Lucky for me, being sinful is in my DNA. The only obstacle to full initiation is my task: seduce the un-seducible, the forbidden, and lure her with the sins of the flesh. Easy for a man like me...in theory.

She started as my task, but what happens when the lines between lust and love blur, and the need for power rages war with the need for her? Accept your sin wisely, for the tasks given to earn your place are not for the weak—they're for The Elite. This is my life, my chance, my legacy.

He wants her back home or his pretty little doll must die.

Have you ever had to make a decision that haunts you every single day for the rest of your life...The life you stole back?

I ran for my survival, rocks and twigs cutting into the soles of my feet, my lungs burning and screaming for rest, every muscle tensed and fighting along with me for existence. I ran, ran, ran – from Benny and his lone pretty dolls – until I couldn't remember where to find them again. I'm sorry.

THE DETECTIVES: Kate Hamblin is a feisty, young police detective, with a dynamic approach to her job. She is plucky and tenacious, but prone to being impetuous and headstrong, which often lands her in tight spots and does not exactly endear her to her crusty boss, DI Ted Roscoe.

In stark contrast to Kate, her detective partner, Hayden, is an overweight, untidy ex-public schoolboy, with a pompous, laid-back attitude, which drives her to distraction. But he is also highly intelligent, with a keen, analytical mind and a practical, reasoned approach to everything, which often acts as a brake on some of his partner's more impulsive actions.

THE WOMAN IN THE WHITE KIMONO 小さい鳥

Historical fiction

OCEANS AND DECADES APART, TWO WOMEN ARE INEXTRICABLY BOUND BY THE SECRETS BETWEEN THEM.

Japan, 1957. Seventeen-year-old Naoko Nakamura's prearranged marriage to the son of her father's business associate secures her family's status in their traditional Japanese community, but Naoko has fallen for another man, an American sailor. America, present day. Tori Kovač, caring for her dying father, finds a letter containing a shocking revelation that calls into question everything she understood about him, her family, and herself. Setting out to learn the truth behind the letter, Tori's journey leads her half-way around the world to a remote sea-side village in Japan, where she must confront the demons of the past to pave a way for redemption.

A poignant, sweeping novel of spirit and love that travels the difficult road to acceptance through secrets, sacrifice, and lies as both women, past and present, confront social stigmas, secret burial grounds, exiled communities, and the gut-wrenching consequences of their own choices.

THE USEFUL IDIOT

Historical thriller

Based on the terrifying and tragic true story of Gareth Jones, the Welsh journalist who first told the world about the famine in the Soviet Union in 1933.

Moscow, 1932. Gareth Jones is a young Welsh reporter who has developed Communist sympathies following the Miners' Strike in 1926, where he witnessed a young boy crushed to death by a police van. He wants to write about what he saw, but the district editor of his paper won't run the story. Looking for a fresh start and eager to make his name in journalism, he arrives in the Soviet Union, excited to see for himself the new system being forged by Josef Stalin.

Johns meets American and British journalists who acclaim Stalin's great experiment, among which the cynical but savvy Walter Duranty of the New York Times, and he falls madly in love with the beautiful and mysterious Ukrainian translator Evgenia.

When Jones starts to realise that behind the happy façade put up by the Russian government lies the horror of collective starvation, his admiration for Duranty withers and his belief in the revolution is shattered. He must decide whether to do his job and write honestly about what he sees, or become yet another 'useful idiot', saying only what the Communist Party allows and smothering the evidence of his own eyes.

It's January 1933 and in Berlin Hitler has been appointed Chancellor. Jones watches and mingles with other western journalists, corrupted by sex and power, not questioning Stalin's man-made famine. But if he tells truth to power, will he too be silenced forever?

He learns there is a small group of underground resistance amongst the foreign expats of Moscow. But whose side is Evgenia really on? Is she a spy? Is her attraction to him just an act?

In a harrowing and dangerous journey escaping Moscow and through Ukraine, Jones will risk everything, and the woman he loves, to carry a film reel, the only evidence of the terrible truth to be revealed to the world – or it will be his word against the Soviet Union...

Disowned by both sides, the children are to be abandoned with no one to protect them. But their teacher, Grace Collins, a young Englishwoman, refuses to leave the orphans and instead, with the help of a man who loves her deeply, sets out to guide them to the safety of India.

They face impossible odds, because between the group and India lie one thousand miles of jungle, mountains, rivers and the constant, unseen threat of Japanese soldiers.

With the enemy chasing them down, the group's chances of survival look bleak -- until they come across a herd of fifty-three elephants who, with their awesome strength and kindness, quickly become the orphans' only hope.

LARS BROWNORTH

THE CAESARS

Popular history

Volume 1: Julius Caesar. The Roman Colossus

In 49 BC a Roman army marched south from the Alps and crossed the Rubicon, a shallow river that marked the northern border of the territory controlled by the city of Rome. The army was led by a young general and Roman politician called Julius Caesar, and when he crossed the Rubicon he ignited a series of civil wars that led to the overthrow of the Roman Republic and the establishment of the Roman Empire. He extended Roman power across the Rhine and the English channel, conducted whirlwind affairs with two queens, created the modern calendar, and profoundly changed the political workings of Rome. He was, by both ancient and modern estimation, one of the most complete men that the ancient world ever produced.

His death was as dramatic as his life. The brilliant tactician who had spent a career unflinchingly facing death, walked unguarded into a senate chamber and was struck down in one of the most notorious political assassinations in history. But even before the smoke cleared from his funeral pyre, he had become a larger-than life figure. The fallen dictator was reborn as Shakespeare's colossus, straddling the globe.

Now New York Times bestselling author, Lars Brownworth, brings to life the figure Alexander Hamilton called "the greatest man who ever lived."

THE CAESARS

Volume 2: Julius Caesar. The Rise and Fall of the Julio-Claudian Dynasty

In 44 BC, the eighteen-year old Gaius Octavius entered Rome against the advice of virtually everyone, and jumped into the lethal knife fight of Roman politics. Against him were ranged the assassins of Julius Caesar, various would-be power brokers, and the star-crossed lovers Antony and Cleopatra. Most assumed at first that this boy would be easily manipulated, but Octavius turned out to be the most formidable teenager who ever lived. In just over a decade he crushed all of his rivals, established himself as Augustus, and founded a dynasty which would rule Rome for a century and dominate its memory long after the empire vanished.

The Julio-Claudians were the world's first celebrity family, men whose names are still familiar two thousand years after the last one died. There was the grim Tiberius, whose lifetime of flinty service ended in a debauched and demented refuge on the pleasure island of Capri. His successor Caligula was even worse, a sadistic tyrant who appointed his horse as a priest and frequently killed to escape his own boredom. Finally, there was the crafty Clodius who faked idiocy to survive, and the infamous Nero whose suicide marked the final end of Julius Caesar's line.

Now, Lars Brownworth, brings the family and its times to life in a gripping and accessible narrative history.

How the Internet of Genes is Changing your Life

- **#50** Barnes & Noble bestseller

Millions of people have done it: with a few clicks and some spit, and at less than the cost of a fancy dinner, you can buy a reading of your DNA online. With this in hand, you can find out where you came from, trace relatives around the world and find new friends on a genetic social network. You can learn about your predisposition to disease, get a genetically tailored diet, understand the sports to which you or your children might be more suited, and even find a date. It's the dawn of consumer genomics, where the progress of biology meets the power of the Internet and big data.

But do these applications work? Can we really prevent diseases based on what we read in our DNA? What do scientists say? And crucially, do we really understand the implications? What happens if things go wrong and the data is misused or the trust abused?

The first book to investigate the enormous and widespread impact of DNA social networks on every single aspect of our lives, it will do so by balancing well-researched information and engaging first-person narrative. It will steer away from technicalities and focus on issues that will make a big, timeless story.

Can you imagine a book on computers, media or communication that does not mention the internet and social networks? Of course not. And yet, the existing books about personal genomics have a similar limitation. This book will address the topic with a completely new angle. It will deal with genetic technologies in our homes and that fact that online DNA tools have become mainstream.

Sergio Pisto, a science writer and an award-winning book author with a PhD in molecular biology whose journalistic credits include Scientific American, Reuters, the New Scientist, Nature and many others, investigates this brave new world first-hand by interrogating his own genes, and has provided a practical, informative and thought-provoking survival guide to online genetic testing. In it he conveys the hopes and the risks of coming face-to-face with our own genetic profile. From medicine to food, from social networking to genealogy, this book will show you how the DNA revolution is beginning to have such a profound impact on our daily lives and why it will influence the choices we make.

PATRICIA POSNER

THE PHARMACIST OF AUSCHWITZ: THE UNTOLD STORY

Popular history/biography

• sold in **15 territories**

• Over 33,000 copies sold

THE PHARMACIST OF AUSCHWITZ is the story of Victor Capesius, a Bayer pharmaceutical salesman from Romania who, at the age of 35, joined the Nazi SS in 1943 and quickly became the chief pharmacist at the largest death camp, Auschwitz. Based in part on previously classified documents, Patricia Posner exposes Capesius's reign of terror at the camp, his escape from justice, fueled in part by his theft of gold ripped from the mouths of corpses, and how a handful of courageous survivors and a single brave prosecutor finally brought him to trial for murder twenty years after the end of the war. This is much more, though, than a personal account of Capesius. It provides a spellbinding glimpse inside the devil's pact made between the Nazis and Germany's largest conglomerate, I.G. Farben, and its Bayer pharmaceutical subsidiary. The story is one of murder and greed with its roots in the dark heart of the Holocaust. It is told through Nazi henchmen and industrialists turned war criminals, intelligence agents and zealous prosecutors, and intrepid concentration camp survivors and Nazi hunters. Set against a backdrop ranging from Hitler's war to conquer Europe to the Final Solution to postwar Germany's tormented efforts to confront its dark past, Posner shows the appalling depths to which ordinary men descend when they are unrestrained by conscience or any sense of morality.

MATT POTTER

OUTLAWS INC

True Crime/History/Current Affairs

Now in production as a Hollywood movie!

In the world's most dangerous and war-torn trouble spots, you will find a small band of men risking their lives to fly the planes that bring in desperately needed aid and supplies. But they're not heroes. These combat-hardened veterans fly giant Soviet-era superplanes which carry a dark secret: 15 tonnes' worth of secret compartments which they fill with illicit payloads. Their hidden cargo is virtually impossible to detect, and these cowboys of the air will carry anything, from

drugs, guns, diamonds and money to people - whatever you've got, to anywhere you want them to take it. But they pay a heavy price: crews routinely lose their lives to gun-toting pirates, terrorists, hostile state forces, jealous competitors and alcohol.

Journalist **Matt Potter** has flown with these men, and in **OUTLAWS INC.** he follows their incredible, action-packed story around the world. On the way he discovers a secret society populated by mercenaries, dictators, secret policemen, gangsters, businessmen and real-life Bond villains, and finds a story that is all the more terrifying for being true.

OUTLAWS INC. is the result of nearly 20 years of work, and a journey that took its author from the mafia badlands of the disintegrating Soviet Union to the black-market warehouses of Afghanistan, the cocaine coast of Central America and the last bolthole of Slobodan Milosevic's Serbia. It combines first-person action-adventure with true crime and political analysis.

CYBER MERCENARIES

True Crime/History/Current Affairs

The incredible true story of how a secret Internet army conquered the world

The book begins twenty years ago, when journalist Matt Potter received an email containing secret NATO battle plans sent from inside the military superpower's HQ. Shortly afterwards he was pulled in by MI5 and interrogated as a suspected spy. Confused, a little scared and very, very intrigued, Matt set out to find out how and why this happened, embarking on an investigation into the origins of hacking which would last two decades. **CYBER MERCS** is the result of his extraordinary journey into the online underworld.

Far from the image of engineers and labs, this is an arena where street-kids become mercenaries; superpower militaries are defeated by teenagers; spies vanish and rise again as tech consultants; lethal assassins live undercover as escorts and glamorous pop stars; and organized crime lords make Silicon Valley CEOs offers they can't refuse. Because just like physical conflict, cyber war is about humans, at their worst, most desperate, and – sometimes – most heroic.

This is the untold story of cyber warfare, which reveals its origins worthy of a Bond movie in the last days of the Cold War and reveals how over the decades, via the ganglands of Eastern Europe to the Pentagon, and from Russian psyops to the corridors of Facebook, the world we think we inhabit has become their world.

From a group of Eastern European teenagers to governments around the globe and organized crime, from silicon valley to the world's most ingenious – and powerful – mercenaries, this is the incredible true and untold story of cyber warfare, the people who wage it and how their dark arts define today's world.
