Ilona Andrews | MAGGIE THE UNDYING

Epic Fantasy-Romance

3-book, 7-figure pre-empt/Tor

Publication 2026

**(Translation: France, Germany—NYLA/
Other territories: Tor)**

Devi Pillai at Tor pre-empted for 7 figures this Epic Fantasy-Romance series set in a brand new world from the #1 NYT bestselling author duo that combines elements of heroic fantasy, romantasy, portal isekai, and D&D enriched by the authors' signature blend of humor, emotion, action, and imagination; it's GAME OF THRONES meets OUTLANDER!

Heroine Maggie wakes up cold, naked, and filthy in Kair Toren, a city in the kingdom of Rellas, a world she knows intimately from the pages of an unfinished dark fantasy series she's been obsessively reading and re-reading while waiting years for the final novel.

With no idea how or why she's landed in this gritty, violent world, she's determined to survive until she can figure out how to get home with her only tools—an encyclopedic knowledge of the plot, setting, and the characters' actions, motivations, and fates: information she can sell to the highest bidder—all while staying under the radar so as not to affect the very information she plans to barter.

And she discovers another, surprising 'skill': she cannot be killed (though many will try).

But as she becomes more attached to the motley band she's somehow gathered — which includes a formerly enslaved lady's maid, a deadly assassin, a dangerous soldier, and various outrageous creatures — she instead finds herself trying to save them and the Kingdom of Rellas from the cataclysmic war she knows is coming.

Chinaza Bado | BIRTH OF A DYNASTY

Debut High Fantasy Epic

3-books, 6-figures/Voyager US & UK

Publication in 2025 (Translation: NYLA)

GAME OF THRONES meets CHILDREN OF BLOOD AND BONE in Chinaza Bado's edge-of-your-seat, drama-filled, and gut-wrenching, debut epic high fantasy set in a fictionalized Africa, where magic is feared and giants are real. It follows three high noble families as they fight to maintain their power in the midst of averting a devastating prophecy.

M'Kuru Mukundi, the sole surviving member of the high noble Mukundi family of Madada, barely escapes a brutal attack by Prince Effiom and the Red Sun Army of the Zenzele. After watching everyone else he ever knew slaughtered by Prince Effiom, ten-year old M'kuru makes a vow: We shall not forgive. We shall not forget. We will have our vengeance.

M'kuru flees to a small village where he hides as farm boy Khalil Rausi, unaware that the real Khalil's father is the bloodthirsty Commander of Prince Effiom's army.

Meanwhile, in Winneba, young Zikora Nnamani, the only daughter of Lord Nnamani, wants nothing more than to be a fierce Seh Llinga warrior. But Zikora is the most beloved child of Winneba and, according to the prophecy, the only living threat left to the Zenzele Dynasty. When the Queen's messenger arrives to "invite" Zikora to the castle, her family is not in a position to refuse...

Between scheming ladies at court, backstabbing princes on the prowl, and everyone in between having nothing to lose, M'kuru and Zikora must do what they can, no matter how terrible, to save their people and claim vengeance for their families. BIRTH OF A DYNASTY is a fast-paced high fantasy about court intrigue, dangerous politics, power struggles, devastating violence, and surviving in a world dedicated to destroying you, perfect for readers who crave their next heart-shattering epic read.

Jennifer K. Lambert | ONEIRA
Romantasy Stand-Alone Novels
2-book, 6-figure pre-empt/Tor
Publication in 2025 (Translation: NYLA)
Rights sold in: Italy/Fazi; Russia/Clever Media

With atmospheric and lyrical stylings akin to Max Gladstone's THIS IS HOW YOU LOSE THE TIME WAR and Genevieve Gorniches's THE WITCH'S HEART, ONEIRA is a debut star-crossed lovers fantasy romance that is perfect for fans of Madeline Miller, Stephanie Garber, Elodie Harper, and Erin Morgenstern.

Exiling herself from the warring courts of men, sorceress Oneira seeks peace on a remote island where the mountains meet the beach. She's long accepted that her death is near, as death and destruction have been her constant companions since she was sold as a child to the Academy of Sorcerers.

But then her seclusion is interrupted by three otherworldly companions—a near-mythical wolf, a goddess's avatar in the form of a kestrel, and a feline that embodies magic itself. Then on a perhaps fated whim, Oneira invites a second interruption by her otherworldly trip to the most extensive library in existence—at the home of her most powerful rival, the sorcerer Stearanos. In an act of recklessness, she steals a book...and inadvertently initiates a correspondence of taunting notes and clever retorts and reveals a connection neither could ever find in another. But a relationship is far too dangerous to pursue despite their mutual desire.

When Stearanos is called to war, he pleads with Oneira to help, jeopardizing the vows Oneira made to herself on her darkest day and to the Queen she once served. Faced with the impossible, to save her love or herself, Oneira must once again choose between life and death.

ONEIRA gives fantasy readers everything they could want: expansive world-building, an intriguing magic system, a timeless Romeo and Juliet story, and beyond all else—a yearning for something more.

Jessie Mihalik | SILVER AND BLOOD

Romantasy Debut

2-book, 6-figures/Avon

Publication in 2025 (Translation: NYLA)

This enthralling Beauty and the Beast-inspired romantasy debut by Mihalik, the critically-acclaimed author of the Rogue Queen, Consortium Rebellion, and Starlight Shadows series, and whose work the New York Times calls “intense,” “addictive,” and “filled to the brim with scorching chemistry,” is described as Naomi Novik’s UPROOTED meets Sarah J. Maas’s A COURT OF THORNS AND ROSES. When Riela, an untrained magic wielder, agrees to venture into the dark forest to kill the deadly beast that has been attacking her fellow villagers, she accepts the responsibility even though it likely means her death. The last thing she thought to encounter while battling one of the forest beasts was a powerful, scarred, and strikingly handsome mage. Riela awakens in a magical castle complete with a gorgeous library, a strange wolf, and the surly man who saved her life. She soon learns Garrick is not a mortal mage at all—he’s a powerful sovereign who has been locked out of his kingdom for nearly a century, and his powers are weakening. Trapped in his castle and surrounded by the dangerous woods, Riela and Garrick fight a losing battle against the desire growing between them. But the more they discover about Riela’s magic, the more suspicious Garrick grows of her identity. As they unravel the secrets connecting Riela’s past to Garrick’s kingdom, the tenuous threads of trust between Riela and Garrick begin to fray because her life—or her death—might be the key to regaining everything he’s lost.

SILVER AND BLOOD delivers all the high stakes and steamy intensity that makes it perfect for fans of Jennifer L. Armentrout, Holly Black, Rebecca Yarros, and Danielle Jensen, as well as for every fantasy romance fan seeking their next exquisite read.
