# Stephanie Laurens

#1 New York Times bestselling author Stephanie Laurens began writing romances as an escape from the dry world of professional science. Her hobby quickly became a career when her first novel was accepted for publication, and with entirely becoming alacrity, she gave up writing about facts in favor of writing fiction.

Laurens's novels are primarily set in the British Regency to early Victorian times, and her settings range from Scotland to India. Laurens has published over seventy works of historical romance, including 40 New York Times bestsellers. All her works are continuously available in print, and digital formats in English worldwide and have been translated into many other languages. For a full list of titles and rights holders, please contact [Cheryl@nyliterary.com](mailto:Cheryl@nyliterary.com)
