BIG DEAL!

Olivia Dade | ZOM ROMCOM

Supernatural Rom-Com, 3-book, 6-figure auction/Berkley
Publication in 2025 (UK/Translation: PRH)

ZOM ROMCOM, a laugh-out-loud **supernatural romantic comedy** that delivers teary-eyed sentiment, mildly terrifying situations, and heart-stopping feels—sometimes all at once—by Olivia Dade, beloved author of SPOILER ALERT and ALL THE FEELS, has been acquired by Berkley in a 6 figure, 3-book WORLD RIGHTS deal. A monster-filled adventure that's also hilariously and heartwarmingly human it's described as *The Last of Us* meets Jenna Levine's *My Roommate is a Vampire*, and a perfect storm of high stakes, comedy, and romance.

Eden "Edie" Brandstrup is dumbfounded when, while attempting to save her seemingly harmless human neighbor from the first major zombie breach in two decades, she is saved by him instead. As it turns out, he's actually a super-old, super-surly vampire. And for all her neighbor's newly revealed cynicism and lethality, Gaston "Max" Boucher (yes, Gaston) is unexpectedly insistent that she stay in his safety bunker until the breach is resolved.

But Edie can't risk more innocent people getting killed—and Max won't let her save them alone. As they unravel a sinister conspiracy to set zombies loose on the world (again), the duo meet a host of lovable allies and discover they're not the only ones willing to fight for the future of humanity. Despite the awful timing, Edie finds herself falling for the vampire helping her save the world—but all their dangerous plans could end their future before it even begins. Does having a love worth living for mean having a love you'd die for? And in a world that grows deadlier by the minute, will Edie let herself love Max anyway?

~~~

Olivia Dade has worn many hats—holder of an M.A. in American History, high school teacher, Colonial Williamsburg interpreter, lifelong nerd—but has most recently earned herself a dear place in readers' hearts as a romance novelist. Leading the pack in plus-sized representation with her *Spoiler Alert* and *There's Something About Marysburg* series, Dade's talent shines brighter than ever in ZOMROMCOM—the undeniable beginning of another romantic adventure.

**BRAND NEW!**

**Jennifer K. Lambert | ONEIRA**

**ROMANTASY STAND ALONE NOVELS, 2-book, 6-figure pre-empt/Tor  
Publication in 2025 (UK/Tor; Translation: NYLA)**

**"This is the kind of book that brings the good kind of hate mail. You made readers cry so much they hate you, but they love it so much they need to tell you why.”\***

With atmospheric and lyrical stylings akin to *THIS IS HOW YOU LOSE THE TIME WAR* and Genevieve Gorniches’s *THE WITCH’S HEART*, *ONEIRA* is a debut star-crossed lovers fantasy romance that is perfect for fans of Madeline Miller, Stephanie Garber, Elodie Harper, and Erin Morgenstern.

Oneira’s tale begins at the end, or so she thought. Exiling herself from the warring courts of men, she seeks peace in a remote forest where the mountains meet the beach. She’s long accepted that her death is near, as it and destruction have been her constant companions since she was a child when her family sold her to the Academy of Sorcerers.

Her seclusion is first interrupted by three otherworldly companions—a near-mythical wolf, a goddess’s avatar in the form of a kestrel, and a feline that embodies magic itself. Then on a whim, or perhaps at the behest of fate, Oneira invites a second interruption when she makes an unlikely and otherworldly trip to the most extensive library in existence. Which is the home of her most powerful rival, the sorcerer Stearanos.

There, she finds herself stealing a book from him, and this act of reckless thievery inadvertently initiates an unlikely correspondence. Taunting notes and clever retorts reveal a connection neither has—nor could ever find—in any other. But a relationship is far too dangerous to pursue despite their mutual desire.

When Stearanos is called to war, he pleads with Oneira to help, jeopardizing the vows Oneira made to herself on her darkest day and to the Queen she once served. Faced with the impossible, to save her love or herself, Oneira must once again choose between life and death.

*ONEIRA* gives fantasy readers everything they could want: expansive world-building, an intriguing magic system, a timeless *Romeo and Juliet* story, and beyond all else—a yearning for something more.
